

Reemika Subrata Das

• AI/ML Engineer | Data Analyst • San Jose, CA • das.reemika@gmail.com • 408-829-7230 • [LinkedIn](#) • [GitHub](#)

EDUCATION

Santa Clara University - M.S. in Business Analytics | Sept 2024 - Dec 2025 | GPA: 3.71/4.00

- Data Analytics with Python, SQL Fundamentals, Tableau, Machine Learning, Deep Learning, Marketing Analytics

ITM Business School - Post Graduate Diploma in Management | Jun 2019 - May 2021 | GPA: 3.02/4.00

- Decision Sciences, Advanced Excel, Marketing Management, Corporate Finance, Financial Modelling & Simulations

University of Mumbai - Bachelor's in Management Studies | Jun 2015 - May 2018 | GPA: 3.70/4.00

- Business Statistics, Business Mathematics, Computer Application, Organizational Behavior, Corporate Finance

PROFESSIONAL EXPERIENCE

Santa Clara University - Research Assistant | Apr 2026 - Present | Santa Clara, CA

- Built an agentic GenAI tool (LangChain + Python + MySQL) performing schema discovery, natural-language-to-SQL query generation, execution, and response synthesis, enabling non-technical researchers to query structured data conversationally
- Designed and deployed a full-stack AI application using Python, Streamlit, and AWS EC2, exposing the agent workflow through a natural-language interface with REST API integration for backend communication

Adobe - Data Scientist Practicum | Jan 2025 - Jun 2025 | San Jose, CA

- Built end-to-end time-series forecasting pipeline across 3 products, covering data preprocessing, feature engineering, model development, and evaluation; benchmarking RNN model using Python, Scikit-Learn, and Keras
- Performed statistical testing (ADF/KPSS), model validation, and performance evaluation using MAPE-based metrics, improving forecasting accuracy by 2–4% through hyperparameter optimization and iterative experimentation

XL Dynamics India Pvt Ltd - Process Executive MIS | Nov 2021 - Aug 2024 | Navi Mumbai, Maharashtra

- Prepared and designed 30+ MIS reports and dashboards using SQL, Excel, and Power BI, tracking KPIs and visualizing performance trends to support data-driven decision-making for senior leadership
- Partnered with 7-8 cross-functional teams to identify process improvements, and delivered ad-hoc data analysis report

MP Financial Advisory Services LLP - Credit Risk Analyst | Jun 2021 - Oct 2021 | Mumbai, Maharashtra

- Developed Excel-based financial models to assess creditworthiness and risk exposure for 5 clients, delivering structured summaries to support lending decisions

Trio Logistics Pvt Ltd - Account Assistant | Jun 2018 - Jun 2019 | Navi Mumbai, Maharashtra

- Managed reconciliation reports and monthly financial summaries for 50+ clients, ensuring accuracy for tax filing

PROJECTS

HealthMate: AI Fitness & Nutrition Guide – Conversational RAG | [GitHub Project Link](#)

- Built and deployed a conversational RAG fitness & nutrition assistant (Python, LangChain, FAISS, Hugging Face) with history-aware retrieval (94% accuracy) and a LangSmith LLM-as-a-judge evaluation harness (77% relevancy, 79% faithfulness)

Blindness Detection in Diabetic Retinopathy – Deep Learning | [GitHub Project Link](#)

- Developed an image classification pipeline (Python, Keras, NumPy, Pandas) using ResNet50 with data augmentation to address class imbalance; achieved 75.5% accuracy with significantly improved recall for Severe and Proliferative DR classes — demonstrating applied ML algorithm selection and model evaluation methodology

Coffee Shop Sales Analysis - MySQL · Tableau | [GitHub Project Link](#)

- Analyzed 149K+ coffee shop transactions across 3 store locations using MySQL (30+ queries: revenue aggregation, time-window segmentation) and visualized key findings in Tableau — identifying morning peak hours (55% of transactions) and June as top revenue month (\$166K), enabling data-driven staffing and inventory decisions

TECHNICAL SKILLS

- **GenAI/AgenticAI:** LLMs (OpenRouter, Groq, Hugging Face), LangChain, RAG, SQL Agents, tool calling, Prompt Engineering, Vector Database (FAISS), LangSmith, LLM-as-a-judge evaluation
- **AI/ML:** scikit-learn, Tensorflow, Keras, Feature Engineering, Regression, Classification, ANNs, CNNs, RNNs
- **Languages & Databases:** Python, SQL, MySQL
- **Data & BI:** MS Excel, Tableau, Pandas, NumPy, Matplotlib, Exploratory Data Analysis, Data Wrangling, Data Preprocessing, Business Intelligence, KPI Reporting
- **Cloud & Tools:** AWS (EC2), Git, Github, Streamlit, REST APIs
